

Agri-Growth's Web-based Training

In today's highly competitive environment, both producers and agribusiness professionals need products and services to increase productivity and profitability. We are all compelled to work faster, harder, and more efficiently to survive in today's ever-changing climate. As you and your business adapt to meet the demands of today's rapidly changing world, one thing is clear — you need to partner with others to succeed. Agri-Growth can partner with you to succeed in today's agricultural marketplace.

Training Plan

Agri-Growth provides a need analysis and training plan, as well as the necessary forms and administrative procedures to implement your program.

Course Content

Agri-Growth will develop and deliver course content to meet your specifications.

Password Protection

Each representative receives a private password for security, testing, tracking and reporting purposes.

Tracking and Reporting

All trainees are tracked by password user name, and reports are issued for usage and completion.

Credit Card Authorization

Agri-Growth offers a secure and convenient feature that allows trainees to purchase courses and register on-line with Visa and MasterCard.

Instant Certification

The on-line exam feature allows each trainee to print an immediate certificate upon the successful completion of a course.

Convenient, Self-Paced Learning on Demand

With a link to the internet, anyone can train with Agri-Growth - 24 hours a day, 7 days a week from anywhere — in the office, at home, or while traveling.
